First, a team of LEGOLAND® designers photographed buildings, roads and streets across Asia. Then, it took 2 years of 3D design and production before the models were built. Many were constructed locally in the LEGOLAND Model Shop in Johor Bahru. Others were built in the USA, Denmark, England, Germany and the Czech Republic before transported to LEGOLAND Malaysia for installation.

Since its inauguration, LEGOLAND® Malaysia has expanded MINILAND® to include 'Amazing Malaysia,' which celebrates Malaysia's cultural diversity and iconic landmarks from both East and West Malaysia.
